

Timber and Working With Wood Shows 2011

Brisbane 20th - 22nd May
Sydney 17th – 19th June
Canberra 2nd – 4th September
Perth 9th – 11th September
Melbourne 21st – 23rd October

Seminar Program for Gifkins Dovetail with Roger Gifkins & Col Hosie

There will be demonstrations of dovetail joints and finger joints between these three boxmaking sessions, using the worlds simplest dovetail jig.

11:00 Small Jewellery Box

Dovetailed box with frame and panel lid. This box could be fitted with butt hinges, however at the show I will do a loose lid version of this design to save time.

1:00 Special Jewellery Box

This jewellery box with internal tray and fittings follows the project from our Plans #3 and DVD #3. This is a considerably more elaborate project than our other sessions at the show, and it makes a perfect gift for that special person in your life.

3:00 Desktop Box

This is about as simple as a box can get! A dovetailed box with raised panel lid. The box is split in half on the router table and a mitred lining is used to locate the lid in place.
